## RESOLUTION ON THE ANNUAL REPORT OF THE BENGAL SMOKE NUISANCES COMMISSION FOR THE YEAR 1921.

### GOVERNMENT OF BENGAL.

#### COMMERCE DEPARTMENT.

CALCUTTA, THE 21ST AUGUST 1922.

RESOLUTION—No. 4376Com.

READ—

The sixteenth annual report of the Bengal Smoke Nuisances Commission for the year 1921

THE Commission held twelve meetings during the year for the transaction of their business.

2. The number of factories visited for instruction, etc., was 3,122 as against 1,995 and the number of observations of smoke emission taken was 8,254 against 7,514 during the previous year.

3. The average emission of smoke of the controlled grades expressed in terms of scale six has risen to 1·6 minutes in the hour from 1·22 in the previous year. It is not improbable that had the Smoke Nuisance Department been fully staffed during the year under review, this unsatisfactory feature in the year's working would have been obviated.

4. An attempt was made throughout the year to cope with the illicit and wasteful practice of making coke from raw coal in open heaps on the ground. The police were asked to take proceedings against the coke makers in 53 cases and four prosecutions were instituted against the owners of the ground on which the practice was being carried on. Progress in this respect must, however, largely depend on the degree of co-operation of owners and occupiers with the Smoke Nuisance authorities in preventing the making of coke within their premises.

5. Plans of 41 installations were examined and passed during the year under review as compared with 56 in the previous year. The Commission also dealt with many references from various municipalities which necessitated careful investigations and tests.

6. The number of offences reported to owners for departmental action was 1,107 an increase of over 50 per cent. on last year. The increase in the number of complaints received from the public (71 against 48 in the previous years) reflects public appreciation of the relief afforded by the activities of the department.

7. Statutory warnings were served in 8 cases, the corresponding figures for the last two years being 15 and 16. Nine prosecutions were instituted during the year—two against factories, two against bakeries and five in coke-making cases.

8. The number of electric motors installed was 321 against 318 in the previous year. The installation of a large number of gas appliances during the year make for improvement in the general conditions of public health.

9. Fuel available during the year under review was generally of an inferior quality, resulting at once in excessive smoke and diminished factory outturn. In some cases where furnace draught was reduced by small flues, bends or other causes, the department was able to render assistance and advice. In one factory the furnace and flues were rebuilt and amended under the expert guidance of the department, the result of the alterations being less trouble to the firemen, better steam and outturn from the factory, and saving in fuel of 3 per cent. to 4 per cent.

10. The majority of rice-mills were forced by the scarcity of coal to use paddy husks for fuel, this being the only alternative to closing down. The result, however, was a smoke nuisance most obnoxious to the residents of the localities concerned. A conference was held of the rice-mill owners and the department, the result of their combined efforts being not only the removal of the nuisance, but the devising of methods by which husks could be used in furnaces as fuel with the maximum of economy and the minimum of smoke production.

11. In spite of the staff being below sanctioned strength the report shows steady and satisfactory progress in the reduction of smoke nuisances, a matter of great importance to public health. It is hoped it will be possible to fill the vacant post of Inspector soon. Hitherto suitable candidates have not been available. It is proposed to add a draughtsman to the staff to relieve the Inspectors in the preparation and alteration of plans. It is gratifying to note that the activities of the Commission generally met with the co-operation and appreciation of the public. The Governor in Council desires to thank the members of the Commission as well as Mr. Robson, the Chief Inspector, and his assistant for the successful administration of the department.

ORDER.—Ordered that a copy of the resolution be forwarded to the Government of India, Department of Industries; the President of the Smoke Nuisances Commission; the Commissioners of the Presidency and Burdwan Divisions; the Commissioner of Police, Calcutta; the Chairman, Corporation of Calcutta; the Chairman of the Commissioners for the Port of Calcutta; Director of Industries, Bengal; the Secretary, Bengal Chamber of Commerce; the Master, Calcutta Trades Association; the Honorary Secretary, Bengal National Chamber of Commerce; the Chairman of the City Improvement Trust, Calcutta; and the Local Self-Government Department of this Government.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

## APPOINTMENT OF A COMMITTEE TO ADVISE ON THE EXTENSION OF THE BOUNDARIES OF CALCUTTA.

### GOVERNMENT OF BENGAL.

### LOCAL SELF-GOVERNMENT DEPARTMENT.

CALCUTTA, THE 29TH AUGUST 1922.

RESOLUTION—No. 4601L.S.-G.

THE Calcutta Municipal Bill, 1921, which has already been introduced into the Legislative Council and is now under consideration by a Select Committee, adopts the existing boundaries of Calcutta, except for the inclusion of a small area which now forms part of the Tollygunge Municipality. The first draft of the Bill was circulated in 1917, and the question of extending the municipal limits by the inclusion of Cossipore-Chitpur Municipality, Maniktala Municipality and certain other special areas was then raised. This proposal commended itself to the Corporation, but was strongly opposed by delegates from the local areas concerned at a conference convened by the Minister for Local Self-Government in 1921, and, in deference to their views, Government decided that it was inadvisable to modify the Bill. At the same time, when announcing this decision in the Legislative Council on the introduction of the Calcutta Municipal Bill, the Minister for Local Self-Government expressed the view that this question should be regarded as still open to discussion, if it appeared that public opinion in Calcutta and in the areas concerned were on the whole in favour of this revision of the city boundaries. The Corporation has in the meantime further considered this important question and has adhered to the former proposals for the inclusion of Cossipore-Chitpur, Maniktala, the new Dock extension area, the Ballygunge Pumping Station and the High Level Outfall Sewer up to a certain point (within the Tollygunge Municipality) and the fixing of boundary limits everywhere at a distance of 200 feet beyond the boundary road so that water and drainage connections and other municipal conveniences may be provided for houses situated on the outer side of the road. As regards the inclusion of the new Dock extension area, it is proposed that the boundary should be fixed at 200 feet beyond the outer road which the Port Commissioners propose to construct.

2. The important changes involved in the inclusion of the large suburban municipalities of Cossipore and Maniktala are justified on the ground that the residents of these suburbs virtually form a part of the population of Calcutta and that the tendency of this population is to spread to the north. It is urged that the immediate development of these areas is necessary to relieve congestion in Calcutta, and that the resources of the local municipalities are too limited to enable them to provide a proper drainage, sewerage and road system, without which the sanitary conditions of these areas must form a menace to the health of Calcutta.

On the other hand, it is urged that the views of the residents of these areas merit the most careful consideration and that amalgamation with Calcutta should not be effected, unless it is clearly shown that this step is necessary in the interests of what may be termed Greater Calcutta and does not conflict with the wishes of the people concerned. The incorporation of the two municipalities referred to would add 6½ square miles and a population of over 100,000 to Calcutta. It has been urged that the Corporation of Calcutta already has a sufficiently exacting charge, and that there will be difficulties in undertaking an additional burden which will involve heavy administrative work and probably increased financial liabilities.

3. Having regard to the views of the Calcutta Corporation, who in this matter are supported by the Trustees for the Improvement of Calcutta, the Minister has decided that it is desirable to appoint a small independent committee to advise on the whole question. Their report will subsequently be laid before the Calcutta Municipal Bill Select Committee. It is intended that the Committee should invite the local bodies and private residents of the areas concerned and the Calcutta Corporation to give evidence regarding the desirability of including the areas referred to within the boundaries of Calcutta or of retaining the boundaries as set out in the present Calcutta Municipal Bill. It has been decided that the Committee should consist of the following gentlemen who have kindly consented to serve :—

(1) Mr. S. R. Das, Advocate-General—*President.*
(2) Dr. Sarat Chandra Banerjee, President, Calcutta Improvement Trust Tribunal.
(3) Mr. J. A. Woodhead, I.C.S., Land Acquisition Collector—*Secretary.*

By order of the Government of Bengal
(Ministry of Local Self-Government),

S. W. GOODE,
*Secretary to the Government of Bengal* (*offg.*).

## APPOINTMENT OF A COMMITTEE TO ADVISE GOVERNMENT WHETHER A BILL CONSOLIDATING ACT I (B.C.) OF 1876 AND ACT XII OF 1880 INTO ONE SHOULD BE FRAMED.

### GOVERNMENT OF BENGAL.

**EDUCATION DEPARTMENT.**

**Miscellaneous (Registration).**

CALCUTTA, THE 1st SEPTEMBER 1922.

RESOLUTION—No. 1836Mis.

THE solemnization and registration of marriages under the Muhammadan law is regulated by two short statutes, viz. :—

(1) Act I (B. C.) of 1876—an Act to provide for the voluntary registration of Muhammadan marriages and divorces ;

(2) Act XII of 1880—an Act for the appointment of persons to the office of Kazis.

A Muhammadan Kazi has an inherent right to celebrate a marriage or preside at a divorce, and the latter Act merely gives official recognition to this status, while authorizing

him to appoint or dismiss Naib Kazis. The question of popularizing the registration of Muhammadan marriages and divorces has for many years engaged the attention of the Government of Bengal. A committee examined this question in 1881 and advised Government that the time was not yet ripe for introducing any measure of compulsory registration. The matter was again considered in 1915-16 by the permanent Advisory Committee, which had been appointed to advise Government in connection with the appointment and dismissal of Mahamadan Registrars and generally in regard to the working of the two Acts referred to above. The committee again declined to advocate compulsory registration, but prepared a somewhat elaborate Bill for the consolidation of the two existing Acts, embodying some important changes in the present law. *Inter alia* they advocated the abolition of the post of Naib Kazi and the recognition of the form of divorce known as *talakbilyad*. They proposed to make the Moslem Registrars competent to register *kabinnamas* and *talaqnamas* which do not deal with immoveable property. They discussed at considerable length the continuance of the present system under which Mahamadan Registrars are permitted to accept gratuities in the performance of their office, and while not prepared to recommend the abolition of this system, they proposed that a fixed scale of fees for the remuneration of Mahamadan Registrars should be prescribed in the Bill. These proposals received the careful consideration of Government, whose decisions were set out in Resolution No. 1410T.—R., dated the 24th September 1917. It appeared that the number of registrations showed a tendency to increase, and from this point of view Government were of opinion that no sufficient case had been made out for new legislation, particularly in view of the definite cleavage of opinion in Muhammadan circles on these important questions. In order to supervise the proper working of the Act, an Inspector of Muhammadan Marriage Registrars was appointed, and a substantial increase was made in the number of official Kazis and Muhammadan Marriage Registrars.

2. The whole question has again been raised in the Legislative Council by two private Bills introduced by Shah Saiyid Emdadul Haq, M.L.C., for the amendment of the Kazis Act of 1880 and the Muhammadan Marriages and Divorces Registration Act I of 1876. His motion for the reference of the latter Bill to a Select Committee was lost, while the introduction of the former Bill has been postponed pending the sanction of the Government of India Government are of opinion that if legislation is to be undertaken, it is desirable that it should be in the form of a comprehensive Bill consolidating the two existing Acts and that the important questions of principle which were discussed in 1881 and again in 1915-16 should be carefully re-examined to ascertain whether changes of a more comprehensive character than those proposed by Shah Saiyid Emdadul Haq, should be introduced. The Minister in charge of the Registration Department has accordingly decided to appoint a committee to advise Government—

(1) whether new legislation is required ;
(2) if so, whether a consolidating Bill should be framed, providing for the repeal of the two existing Acts ; and
(3) if legislation of this kind is considered desirable, the nature of the provisions which should be included in the Bill.

The committee will be constituted as follows :—

(1) The Hon'ble Khan Bahadur Aminul Islam, Inspector-General of Registration, Bengal (President).
(2) Shah Saiyid Emdadul Haq, M.L.C.
(3) Mr. Kazi Gholam Mohiuddin Faroqui, M.L.C.

## DISTRICT REPORTS ON WEATHER AND CROPS

**For the week ending on the 30th August 1922.**

**Summary.**—During the week under review rainfall has diminished, the fall being generally light to moderate over the greater part of the province. Transplantation of winter paddy is fast approaching completion. With the exception of flood-affected areas in parts of West Bengal a normal area is likely to be transplanted this year. The present outlook, so far, is good. Reaping of autumn paddy is well advanced and cutting steeping and washing of jute are in full sowing. The prospects of autumn crops are satisfactory on high lands and fair on low lands. The average price of common rice for the province has fallen by about 0·38 per cent. as compared with that of the previous week.

The examination in cases

The record of a case such as ordinarily comes before a Canal officer exercising magisterial powers will be selected by the President of the Examination Committee The record of the case should consist, as far as possible, of documents recorded in the Court vernacular of the place in which the candidate is employed. The case should not be of special difficulty, and, in selecting it, it should be remembered that officers will only exercise magisterial powers under Bengal Act, III of 1876 (Bengal Irrigation Act).

The record will be read out to candidates by an Indian official. Where possible, the case will be read to each candidate separately, or to small batches. The candidate must write his notes of evidence as the reading proceeds, as he would do were he actually trying the case. At the conclusion of the case the candidate, who may refer to his books, must write (Europeans in English, natives of India in Hindustani, Bengali or English, as they

prefer) a judgment on the question or questions at issue, with a statement of reasons. The Examination Committee will merely state their opinion on the merits of each candidate's judgment and not transmit this part of the proceedings.

Officers will be allowed to pass separately in either of the papers A or B or in the case C. Passing marks in each subject will be 50 per cent.

4. The following table shows the particulars of marks assigned to each subject and the time allowed :—

| Subjects of Examination. | Maximum marks. | Pass marks. | Time allowed. |
|---|---|---|---|
| Law papers "A" ... ... | 120 | 60 | 3 hours |
| Do "B" ... ... | 120 | 60 | 3 do. |
| Examination in cases ... ... | 120 | 60 | To be determined by the Local Examination Committee. |

*Examination in Vernaculars.*

5. Subject to the proviso that no Indian member of the Indian Service of Engineers is liable to examination in a language which is his own vernacular, officers of the Roads and Buildings and Irrigation Branches of the Public Works Department are required to pass an examination in Bengali by the Lower Standard within two years of joining their appointments in India. They are also required to pass an examination in Hindi by the Higher Standard by the colloquial test within four years of joining their appointments in India. If they fail to do so their increments of pay will be withheld till they pass the examinations.

Officers may also, if they so wish, go up for the Higher Standard examination in Bengali within five years of joining their appointments in India.

On an officer passing the language examination the fact should be noted in the Classified List appropriate letters being placed against his name.

6. Officers of the Roads and Buildings and Irrigation Branches of the Public Works Department, who pass the Lower Standard examination in Bengali within the time prescribed, namely two years, are entitled to a reward of Rs. 80.

Those who pass the Higher Standard in Hindi by the colloquial test within four years are also entitled to a reward of Rs. 80.

Those who pass the Higher Standard in Bengali within five years are entitled to a reward of Rs. 120.

Indian officers are eligible for the same reward for passing in a compulsory examination in a vernacular language which is not allied to their mother-tongue

7. Two grades of examination in Bengali are recognized, viz., (I) the Higher Standard and (II) the Lower Standard.

8. The examination specified in grade I above, and the Lower Standard examination specified in grade II above, will be held under the direction and control of the Central Examination Committee.

9. The following are the tests prescribed for the two grades of examination :—

*Grade I.—The Higher Standard of Departmental Examination.*

*A.*—Dictation. A passage from some official paper in Bengali will be read out to the candidates by a Bengali, and they will be required to write it down in Bengali characters with fair accuracy.

*B.*—A written translation from the vernacular into English.

The paper should contain passages from an unseen official document.

*C.*—A written translation from English into the vernacular—

A brief passage from an English judgment * or other official document of a somewhat difficult nature, selected by the Central Examination Committee, shall be translated into the vernacular by the examinee without assistance and in a generally correct manner.

* "The judgment or other official document" will, if possible, relate to matters with which officers of the Public Works Department are likely to have to deal.

*D.*—*Viva-voce* examination in the vernacular—

(*i*) The examinee shall be tested in conversation with several Indians of various classes in such a manner as to satisfy the Examination Committee of his power of making himself understood by them, and of explaining himself with clearness and sufficient propriety in the vernacular in an argument or topic of some difficulty.

(*ii*) The examinee will be called upon to read with fair fluency and explain in English to the Examiners three papers written by different persons in a plain running hand

NOTE.—It is not necessary that each candidate should translate the same piece, just as it is not necessary that the *viva-voce* examination of each should involve the same conversation.

10. The maximum and the pass marks assigned to each branch of the examination and the time allowed for the papers are subjoined :—

| SUBJECTS OF EXAMINATION. | Maximum marks. | Pass marks. | Time. |
|---|---|---|---|
| A.—Dictation ... ... ... ... | 20 | 10 | ½ hour. |
| B.—Translation from Vernacular ... ... ... | 20 | 10 | 2 hours. |
| C— Ditto English ... ... ... | 20 | 10 | 2 do. |
| D.—(*i*) *Viva-voce* Examination ... ... ... | 20 | 10 | 15 minutes. |
| (*ii*) *Ditto* ditto ... ... ... | 10 | 5 | |

*Grade II.—The Lower Standard of Departmental Examination.*

11. For this examination the test shall be the same as the above, but the papers shall be less difficult. The proportion of marks to be obtained in order to pass, and the time allowed for the papers, shall be the same as for the Higher Standard above described. The principal object of this examination shall be to test the proficiency, for practical purposes, of the examinee in such language.

12. No Indian officer (these rules notwithstanding) shall be liable to examination in a language which is his own vernacular. The Superintending Engineer in submitting the lists of intending examinees to the Chief Engineer will consider each case, and, on satisfying himself, may exempt the candidate from examination in such language, reporting the reasons for doing so to the Chief Engineer.

13. Assistant Executive Engineers on first employment should be posted to such duties as will afford them the experience of work necessaay to enable them to pass the examinations laid down in the preceding paragraphs. Cases may, however, occur in which, owing to the exigencies of the public service, illness, or want of time, or opportuuity for convening a committee, an officer may not be able to pass the examinations in question within the prescribed period. In such cases an officer may, at the discretion of Government, be afforded a reasonable extension of time up to a limit of one year, and if he passes within this further period no penalty should be enforced and he may be granted by Government the reward admissible for passing the compulsory vernacular test within the prescribed period. In the event of an officer failing to pass the examinations within the extended period his increments should be withheld, and arrears of increments so withheld should not, on his passing the examinations, be granted to him except in special cases when his failure to pass has been due to circumstances beyond his own control. Failure to pass the examinations within the prescribed period will not, however, affect the amount of an officer's salary when he has subsequently passed the examinations and he will then be entitled to the rate of pay corresponding to the length of his service.

Bengal Government, Appointment Department, Notification No. 2638 A., dated the 4th April 1916.

An officer of under 12 years' service who is transferred from another province where a different vernacular is current from the one prescribed for Bengal to this Presidency, may, at the discretion of Government, be required to pass the Lower Standard in Bengali within two years and the Higher Standard in Hindi by the colloquial test within four years of such transfer; and should he fail to do so he will be liable to the loss of further increments until he has passed.

## MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR AUGUST 1922.

**I. Character of the Season.**—During the month under review the rainfall was in excess of the normal except in North Bengal, where it was generally defective. The excess was most marked in some Western districts. The usual rainfall statement is appended.

**II. Progress of Agricultural Operations.**—Transplantation of winter paddy seedlings made good progress. The area transplanted with the crop is likely to approach the normal. Harvesting of jute and autumn paddy was proceeding favourably in the Eastern and Northern districts.

**III. State of Standing Crops.**—The condition of winter paddy is good and that of other standing crops is generally fair.

**IV. Prospects and Probable Outturn.**—The probable outturn of autumn crops was fair on low lands and satisfactory on high lands. The prospects of transplanted winter paddy are expected to be good so far and those of deep water paddy satisfactory.

**V. Damage to Standing Crops.**—During the early part of the month considerable damage was caused to the standing crops by floods in certain lowlying tracts of West Bengal.

**VI. Condition of Agricultural Stock.**—The condition of livestock was generally fair. Sporadic cases of cattle disease were, however, reported from parts of Nadia, Murshidabad, Khulna, Burdwan, Birbhum, Hooghly, Rajshahi, Darjeeling, Rangpur, Malda, Cooch-Behar, Chittagong, Tippera, Noakhali and Tripura State.

**MISCELLANEOUS.**

*No. 2928Mis.—The 16th September 1922.*—In exercise of the powers conferred by sub-section (*1*) of section 12 of the Bengal Amusements Tax Act, 1922 (Bengal Act V of 1922), the Governor in Council is pleased to make the following rules for securing the payment of the entertainments tax in respect of entertainments other than race meetings, namely :—

RULES.

1. Except as is provided by these rules no person shall mark, or cause to be marked, in any manner, any stamp referred to in clause (*a*) of section 4 of the Bengal Amusements Tax Act, 1922.

2. No person shall purchase any such stamp except from a person duly appointed to sell and distribute stamps, or duly licensed to deal in stamps :

Provided that nothing in this rule shall apply to a person purchasing such a stamp affixed to a ticket for the purpose of being admitted to an entertainment.

3. The proprietor shall not issue, or have in his possession at the place of entertainment, or at any place whereat tickets for the entertainment are sold, any ticket being a ticket authorising or intended to be issued for the purpose of authorising any person to be admitted to an entertainment, unless the price of admission and the statement required by this rule are legibly printed, stamped, or otherwise marked on the ticket.

For the purpose of this rule, price of admission means the price exclusive of the entertainments tax, and there shall be printed on every such ticket as aforesaid a statement that the price printed thereon in accordance with the requirements of this rule excludes the entertainments tax.

4. The proprietor shall not issue to any person a stamp referred to in clause (*a*) of section 4 of the said Act otherwise than securely affixed to a ticket issued for the purpose of authorising admission to the entertainment.

5. The proprietor shall not, on any payment for admission to the entertainment being made, issue in respect of that payment any ticket authorising admission to the entertainment other than a ticket to which is affixed a stamp denoting the proper amount of entertainments tax chargeable in respect of that payment ; provided that this rule shall not apply in any case where the proprietor of the entertainment has made arrangements for furnishing returns of the payments for admission and has given security to the satisfaction of the Local Government for the payment of the entertainments tax.

6. (1) Subject to the provisions of these rules, the proprietor shall not deface, cut, tear or diminish any stamp affixed to a ticket and denoting the proper entertainments tax payable before the ticket to which it is affixed is issued, or admit any person to an entertainment with a ticket bearing a stamp which has been defaced, cut, torn or diminished.

(2) No person being a holder of a ticket to which a stamp is affixed issued for the purpose of authorising admission to an entertainment shall deface, cut, tear or diminish the stamp.

(3) The proprietor shall collect the tickets of all persons about to be admitted to the entertainment, and every person about to be admitted by means of a stamped ticket shall immediately before admission to the entertainment deliver the ticket with the stamp attached to the person who is collecting the tickets.

(4) When a ticket is so collected, the proprietor shall forthwith deface the stamp on the ticket by tearing the ticket into two portions across the stamp and shall return one portion of the ticket to the person to be admitted to the entertainment, and shall retain and keep until midday following the conclusion of the entertainment the other portion thereof, and shall then destroy it.

7. (1) Where the proprietor issues any ticket purporting or intended to authorise the admission to the entertainment of more than one person, he shall cause the ticket to be clearly marked with the number of persons so authorised to be admitted and the total price charged for the ticket, and he shall not admit to the entertainment by virtue of that ticket a greater number of persons than that marked on the ticket.

(2) For the purpose of calculating the entertainments tax chargeable in such a case there shall be deemed to be as many payments for admission as there are persons authorised to be admitted under the ticket, and each of these payments shall be deemed to be equal in amount to the total price charged for the ticket divided by the total number of the persons so authorised.

8. (1) Where the duty is calculated on a lump sum paid for a season ticket, or for a ticket authorising admission to any entertainment, during a certain period of time, the proprietor shall before issuing the ticket mark it with the name of the person to whom it is to be issued.

(2) Unless the proprietor of the entertainment has made arrangements approved by the Local Government for furnishing returns of payments for admission and has given security to their satisfaction for the payment of the entertainments tax, he shall, before issuing any such season ticket as aforesaid, affix thereto a stamp denoting the proper amount of entertainments tax chargeable thereon and shall deface the stamp by writing in ink on the face thereof the date of issue of the ticket, and any such stamp shall not be required to be defaced at the time of admission to the entertainment in the manner prescribed in sub-rule (4) of rule 6.

9. The proprietor shall not admit any person to the entertainment without any payment, unless that person is the holder of a ticket or document entitling him to be admitted without payment and clearly marked "complimentary" or "free" or a badge recognised by the proprietor as entitling the holder thereof so to be admitted. No person shall enter or otherwise obtain admission to an entertainment without payment unless he is the holder of such a ticket, document or badge as aforesaid.

10. Any reference in these rules to admission to a place of entertainment or to a person admitted to a place of entertainment shall be deemed to include a reference to the admission to another part of the place of entertainment, for admission to which part a payment involving payment of entertainments tax or more entertainments tax is required of a person who has been admitted to one part of that place of entertainment and to such a person admitted to such another part of the place of entertainment, and these rules shall have effect accordingly.

11. The Local Government may, for the protection of the revenue, require a proprietor to keep registers of payments for admission and records of stamps denoting the entertainments tax purchased and used, in such form as they may prescribe, and to issue tickets in such form and manner as they may prescribe; and it shall be the duty of the proprietor to comply with such requirements.

12. (1) The proprietor shall at all reasonable times on demand by any officer appointed by the Local Government in this behalf produce to that officer all books and records kept by the proprietor in connection with any entertainment and all tickets and all portions of any tickets and all stamps for the time being in his possession, and shall allow the officer to inspect and take an account of the same or to remove the same for the purpose of examination or inquiry.

(2) A person who has been admitted to an entertainment in respect of which the proprietor has not made arrangements approved by the Local Government for furnishing returns of payments for admission, and giving security to their satisfaction for the payment of the entertainments tax, shall upon the demand made during the course of, or immediately before, or after the entertainment, produce to any officer appointed by the Local Government in this behalf the ticket, badge, card of admission, voucher or document by means of which he was admitted or a portion of the ticket by means of which he was admitted, bearing a stamp defaced in accordance with sub-rule (4) of rule 6.

It is ordered that the rule 1 in Chapter VI, rules 6, 14, 15, 16, 20, 21, 25 (*a*) and 36 in Chapter X and rule 1 in Chapter XX relating to Chamber business, List of suits, etc., Motions and Rules *Nisi* of "The rules of the High Court 1914" be amended as follows and that rule 6 in Chapter VII, rules 21 and 22 in Chapter X and rule 2 in Chapter XX be repealed with effect from the 13th November 1922 :—

CHAPTER VI (CHAMBER BUSINESS).

1. One Judge will sit in Chambers every week day unless notice to the contrary be previously given, and all applications in Chambers shall ordinarily be made to that Judge only. Where a suit appears in the Warning List of any particular Court applications in Chambers in such suit shall be made to the Judge presiding over such Court.

CHAPTER X.

6. There shall also be kept in the Registrar's office three lists of defended suits ripe for hearing, to be called—

Prospective List A for commercial causes.

Ditto B for liquidated claims.

Ditto C for other suits.

14. Any suit in any of the Prospective Lists may be marked as a short cause, and set down at the top of the Peremptory List of defended suits of such Court as the Judge or Judges sitting on the Original Side shall by general or special order direct subject to any part-heard or specially fixed case, where the parties agree and counsel on each side certify that the trial will not, in their judgment, occupy more than an hour, or where a Judge so directs.

15. Where any suit, standing in the General Cause List or in any of the Prospective Lists, is settled, and the parties require only an order for taxation of the costs, it may, on requisition to the Registrar, be set down in the Peremptory List of undefended suits with a note against it "Settled".

16. Where it is desired to postpone a suit which is about to be set down in the Peremptory List of defended suits for hearing, application for postponement of the hearing may be made to the Registrar on requisition in writing signed by all the parties who have appeared. Such requisition shall be submitted to the Judge in whose Warning List the suit has appeared or to the Senior Judge sitting on the Original Side if the suit does not so appear and such order shall be made thereon as to the Judge may seem fit.

20. For each Court sitting in the exercise of Original Civil Jurisdiction, a Peremptory List of defended suits shall be prepared for every working day ; and shall be supplied with the necessary number of defended suits, from the Prospective Lists.

24. Besides the Peremptory List of defended suits, three other Peremptory Lists, namely, "the Peremptory List of Undefended Suits", "the Peremptory List of Motions" and the "Special Peremptory List" shall be prepared as from time to time directed for the Court or Courts taking motions.

CHAPTER X.

**Rule 25** (*a*).—Where a sole defendant has or all the defendants being *sui juris* have failed to enter appearance, (*b*) or where in cases under O. XXXVII of the Code has or have failed to obtain leave to defend or a direction under Chapter XII, rule 6, has been given, or where an order has been made for the transfer of the suit to the undefended list, the suit shall, unless otherwise ordered, be set down in the Peremptory List of undefended suits in case (*a*) on the first motion day after the expiry of the time for entering appearance, and in case (*b*) on the first motion day, as the case may be, after the date of the direction or the filing of the order and the expiry of the time or the non-compliance with the terms of the order.

**Rule 36.**—Suits and proceedings, which have not appeared in the Prospective List within six month from the date of institution, may be placed before a Judge in Chambers, on notice to the parties or their attorneys, to be dismissed for default unless good cause is shown to the contrary, or be otherwise dealt with as the Judge may think proper.

CHAPTER XX.

## ANNUAL REPORT OF THE ROYAL BOTANIC GARDEN AND THE GARDENS IN CALCUTTA AND OF THE LLOYD BOTANIC GARDEN, DARJEELING, FOR 1921-22.

### ROYAL BOTANIC GARDEN.

1. **General.**—Owing to the severe drought that prevailed during the latter half of the year under review, many plants in the open suffered severely and a certain number have died. The rain that has since fallen will however prevent more casualties. During February and March, when the garden was at its driest, an unusual number of fires broke out, no doubt caused by unextinguished cigarette and match ends being carelessly thrown down by visitors on the very dry fallen leaves and herbage. One of the fires damaged several of the Debdar trees in the King Avenue, otherwise they were got safely under.

The roads in the garden generally are not in a very satisfactory condition from causes referred to in previous reports. Considerably more expenditure than the garden finances at present permit would be necessary to make the roads permanently fit to withstand the motor traffic that taxes them so heavily in these days.

During the year a length of over 370 feet of the river bank was revetted with bricks and concrete, bringing the total length so far embanked up to nearly a thousand feet west of the landing stage. Almost as much still remains to be done to complete the scheme of protection. The landing stage and pontoons were overhauled and repaired by the Public Works Department.

The contents of all the plant houses in the public part of the garden were overhauled during the rains and replanting done where necessary. Some thirty plants were planted out in the open, the majority of them being Indian species hitherto unrepresented in the garden.

The development of the economic garden remains in abeyance, owing to the paucity of staff.

The display of cold weather annuals and of orchids was about equal to the average of past years.

2. **Plant and Seed Exchange.**—Nearly 42,000 plants were distributed, of which over 15,000 were trees for roadside and other planting, and nearly 18,000 were shrubs sent out to Government Institutions, District Boards and Municipalities. The balance was made up of climbers, ferns and surplus annuals. Out of the total, over 31,000 were distributed within Bengal.

Over 1,500 plants were received, chiefly orchids. Over 300 packets and nearly 400 pounds of seeds were distributed, including over 300 pounds for the new capital at Delhi. About 160 packets of seeds were received, also two barrels of mahogany seed from Kew and a large quantity of palm seed from Mr. R. S. Lister of Pashok Tea Estate. The range of distribution of the seeds sent out was, as usual, practically worldwide.

3. **Herbarium and Library.**—Owing to the absence on leave of the permanent Curator for the greater part of the year, the effective scientific staff consisted only of two officers, Messrs. Debburman and Narayanswami, of the Botanical Survey Department. Over 2,000 specimens were added to the collection and nearly 8,000 sheets from previous collections were incorporated in the cabinets. The chief contributions were Malayan plants from the Botanic Gardens, Singapore, South Indian from Mr. C. E. C. Fischer, I.F.S., and Dr. Annandale, Director of the Zoological Survey of India, Western Indian from Mr. Bhalerao and Mr. Saxton, Burmese from Mr. A. Rodger, I.F.S.

Over 5,000 specimens were distributed mostly on loan to various botanists to assist in their researches.

4. **Publications.**—Distribution of Part II of Vol. XII of the Annals of the garden was begun during the latter half of the year and is now in progress.

5. **Financial.**—The revenue amounted to Rs. 4,811, mostly from rent of the foreshore for timber storage. There was a saving of Rs. 12,201 on the total allotment of Rs. 1,37,921, partly on establishment, partly on contingencies.

6. **Staff.**—The Superintendent and the Curator of the garden were in charge of their respective posts throughout the year. Mr. C. C. Calder was Curator of the Herbarium up to the 25th June 1921, when he went on leave, Mr. P. M. Debburman thereafter officiating to the end of the year. The duties of the Assistant Curator of the garden were performed in succession by Messrs. N. Mitra, A. Braybon, L. G. Richards and W. V. North. Mr. M. Jones was Overseer throughout the year and Mr. S. N. Basu from the 1st February 1922.

The two senior members of the clerical staff retired during the year, Babu D. N. Basu, the Head Clerk, on the 24th December 1921 after almost 44 years' service and Babu B. P. Banerjee, Second Clerk and from the 5th Dec-

ember Head Clerk, on the 11th February, after almost 39 years' service. Both officers have been faithful and willing servants of Government throughout their time. Babu S. K. Mitra was appointed Head Clerk from the 12th February 1922. All officers and the clerical staff have performed their duties satisfactorily.

## CALCUTTA GARDENS.

Work in these gardens was conducted on the usual lines throughout the year. In addition the garden staff gave considerable assistance in laying out and planting the flower beds around the Victoria Memorial and in furnishing ornamental plants on the occasion of the visit of His Royal Highness the Prince of Wales. In the Dalhousie Square garden His Royal Highness was presented with an address by the Corporation of Calcutta on his arrival in the city.

The Assistant Curatorship of the Calcutta gardens, which has been vacant for several years, was filled by the appointment of Mr. N. Mitra on the 1st February 1922, Mr. S N. Basu having officiated up to that date. The revenue was only Rs. 78, derived from fishing permits for the Dalhousie Square tank. The allotment of Rs. 34,082 was practically all expended.

## LLYOD BOTANIC GARDEN, DARJEELING.

The drought which injuriously affected the gardens in the plains was no less pronounced in the hills and a considerable number of plants in the Lloyd Botanic Garden have been lost. The general appearance of the garden however has not suffered materially. During the year over 1,000 plants, over 2,200 seedlings, over 430 tubers and over 180 packets of seed were distributed. The number of visitors was almost 50,000. The allotment of Rs. 13,646 was expended in full.

Mr. W. V. North officiated as Curator until the return from leave of Mr. G. H. Cave, the permanent incumbent, on the 20th March 1922.

# SIXTIETH ANNUAL REPORT

## OF THE

# GOVERNMENT CINCHONA PLANTATIONS AND FACTORY IN BENGAL

## FOR THE YEAR

# 1921-22.

1. **General.**—The last six months of the year under review were characterised by great drought. From the end of September 1921 to the end of March 1922 only 2·86 inches of rain fell on Mungpoo plantation and scarcely any on Munsong, with the result that almost every stream had run dry before the end of the financial year and great difficulty was experienced in supplying water to the nurseries, gangs of coolies having to be employed to carry water from a distance. The factory had to cease working early in March from lack of water to drive the turbines and later on even the supply to the laboratory failed. On Munsong, where the normal rainfall is considerably less than on Mungpoo, the drought played havoc with the young plants planted out last year, and extensions there were under the circumstances out of the question.

On Mungpoo Mr. Osborne, the Manager, experimented with green manures and various species of shade plants, but definite conclusions cannot yet be formulated. An attempt was also made on a small scale to plant in the autumn, before the end of the rains, seedlings that had been sufficiently developed during the rains by transplanting from seed beds at once into field nurseries with the seedlings 4 inches by 4 inches apart. The extraordinary drought that followed of course completely annulled the experiment. The boring beetle and *Helopeltis* pests gave considerable trouble, but were countered by burning the affected wood, after denuding it of bark, in the one case, and by clean cultivation combined with handpicking in the other. The percentage of quinine in plantation bark continues to rise especially in the Ledger bark In actual factory working Mungpoo Ledger has, on the year's harvest, yielded an average of 5·53 per cent. of quinine sulphate. As the average yield of the Java bark worked up during the year on behalf of the Government of India is 5·73 per cent. Mungpoo Ledger lags little behind such Java bark. The average yield of Munsong Ledger was 4·86 of quinine sulphate. This at first sight compares unfavourably with the Mungpoo percentage, but it has to be borne in mind that the Munsong bark, being entirely from "coppiced" blocks, contains none of the richer root bark which is contained in the Mungpoo harvest. The mixture of root, stem and branch bark derived from a considerable number of trees uprooted, for purposes of block valuation, from 5 to 6 years old blocks, on Munsong, have yielded from 5 to 6 per cent. of quinine. There is therefore good reason to suppose that, when the coppiced areas are again harvested and the root bark then collected, the Munsong percentage will approximate to that of Mungpoo.

The quinine percentage of the hybrid bark of *Cinchona Ledgeriana* X *succirubra* varies from 3·81 to 3·91. This is a decided increase over the average percentage yielded in past years, but is still inferior to the Ledger yield. The hybrid has, so far, despite continuous seed selection for over the last dozen years, failed to respond to the degree hoped for as regards improvement in quinine percentage. To a certain extent it makes up for this by its more robust habit and somewhat greater yield of bark. Being a more robust plant than *C. Ledgeriana*, it can be cultivated in parts of the

plantations where pure Ledger would not be likely to hold out, and to that extent the hybrid is worth keeping in cultivation. The total acreage under the hybrid is about a ninth of the total acreage under Cinchona. In this connexion it may be of interest to note that on the Dutch Government plantations in Java this hybrid forms only about one-fortieth of the total number of cinchona trees in cultivation.

The general quinine situation is still controlled by the Dutch Combine. Although at the end of 1921 the wholesale rate fell from the equivalent of Rs. 48 to Rs. 36 per pound, it is still thrice the immediate pre-war rate. One result of the relatively high price of quinine has been to direct attention in various parts of the world to the possibility of introducing the cultivation of Cinchona. Applications for seed and information as to conditions and methods of cultivation have been received from such widely separated places as Kashmir, Rhodesia, Nyasaland and New Guinea, and seed and information have been supplied. Another result has been a great increase in the consumption of cinchona febrifuge. From 1875 to 1887 this was the sole product manufactured, reaching its greatest output in 1881-82, when nearly 11,000 lbs were issued. Although the two Commissions appointed by Government in the sixties of last century to investigate the therapeutic values of the cinchona derivatives had concluded that cinchona febrifuge, which was then a mixture of the alkaloids of *Cinchona succirubra*, gave as good results as quinine in the treatment of malaria and had then the advantage of being vastly cheaper than quinine, yet popular opinion and the medical profession generally began latterly to entertain a prejudice against it or at least a preference for quinine. Quinine was also favoured by the steady fall in its price from over Rs. 160 in the seventies of last century to Rs. 8 per lb. in 1910, and by 1912-13 sales of cinchona febrifuge had fallen to almost 1,600 lbs. The Cinchona Department had to adjust itself to this change by cultivating less and less of *C. succirubra*, the source of the original cinchona febrifuge, and more and more of *C. Ledgeriana*, the quinine-yielding species. From 1903 the small demand that still existed for cinchona febrifuge was met by utilising the residue of mixed alkaloids, including a proportion of quinine, left after the extraction of quinine from *C. Ledgeriana*. A small acreage of *C. succirubra*, at present amounting almost to 90 acres, has however all along been kept in cultivation, so as to ensure the possibility of its cultivation being extended when the merits of its mixed akaloids were rediscovered by the medical profession in general.

A good few years ago, when the relative merits of cinchona febrifuge and quinine were under discussion by the Government of India, the writer of this report advocated the extension of *Cinchona succirubra* as a source of an increased supply of cinchona febrifuge, not to supplant but to supplement the supply of quinine. The prejudice or preference already mentioned, however, was still too strong and no encouragement was forthcoming. There is now reason to suppose that the advocacy would meet with support, for the researches of Major H. W. Acton, I.M.S., into the chemistry and therapeutics of the cinchona derivatives go to show that in the milder attacks of malaria constituting a large proportion of cases, cinchona febrifuge is as efficacious as, if not more so than, quinine and confirm, on a much broader basis of investigation the views held on purely clinical experience by distinguished officers of the Indian Medical Service in the sixties and seventies of the last century. The average annual sale of cinchona febrifuge for the last five years is almost 14,190 lbs. or eight times as much as in 1912-13, and much in excess of the maximum ever issued when it was the sole factory product. It is impossible for the Cinchona Department to meet this demand merely by the by-products of the manufacture of quinine from *Cinchona Ledgeriana*. If the demand continues at the present rate or increases, it would be necessary to extend the cultivation of *C. succirubra*. This extension the Cinchona Department is prepared to undertake if the medical profession is likely to return to the use of cinchona febrifuge on a fairly extensive scale. It should however be remembered that Cinchona is not an annual crop and that the Cinchona Department does not possess a magic wand to wave over a few

hundred acres of land and make a forest of red bark trees spring up instanter.

2. **Extensions, Acreages and Crops.**—(1) *Mungpoo.*—Rainfall, confined to the first half of the year, was 113·38 inches. Extensions were 70 acres of *C. Ledgeriana.* The harvest was got by cutting out 29·5 acres (26·8 *C. Ledgeriana*, 2 *C. Ledger* × *succirubra*, 0·7 *C. succirubra*) and amounted to 180,502 lbs. The average age of the acreage cut out was 7 years, so that the total average yield per acre over that period is 6,118 lbs. This is the highest yield ever given by the Bengal plantations and considerably exceeds the highest estimate so far entertained for a period of even 10 years. At the end of March 1922 there were 851 acres with a full complement of Cinchona. Near Rungbee 60 acres that had been cleared of Cinchona were planted with mixed fuel and timber trees.

(*b*) **Munsong.**—Rainfall was only 85·83 inches, almost entirely confined to the first half of the year. Owing to the abnormal conditions already mentioned extensions were held in abeyance and work concentrated on filling in the large number of vacancies caused by the drought in the previous year's planting. The harvest was got by coppicing 261 acres and amounted to 394,560 lbs. of which 304,560 lbs., were *C. Ledgeriana.* The average age of the acreage cut out was 7 years, and the average yield per acre in terms of completely cut out acreages was 2,650 lbs. At the end of the year the total acreage under a full complement of Cinchona was 2,277 acres. About 48 acres of cleared land were planted with fuel and timber trees.

(*c*) **Plantations as a whole.**—The total area under cinchona is 3,128 acres, of which about two-thirds are under six years of age.

3. **Factory work.**—The factory used up 510,160 lbs. of bark (233,914 of Mungpoo and 276,246 of Munsong) and produced 22,713 lbs. quinine sulphate, 6,712 lbs. cinchona febrifuge, 17¾ lbs. quinine hydrochloride and 4 lbs. cinchonidine sulphate or a total of 29,446¾ lbs. In addition it produced from the Java bark purchased by the Government of India 21,541 lbs. quinine sulphate and 5,976 lbs. cinchona febrifuge. The total production of quinine sulphate, both provincial and imperial, was 44,254 lbs. and total products from all sources 56,963¾ lbs. The yield of quinine sulphate is about equal to 91 per cent. of the bark contents as determined by analysis.

4. **Cost and value of plantation bark.**—The Mungpoo harvest of 180,502 lbs. at 3·6 annas per lb. cost Rs. 40,613. Its value on its average quinine percentage of 5·4 and a unit rate of 1·5 anna is Rs. 91,379. In other words, the value of the produce of 29½ acres cut out more than covers the entire expenditure during the year on the whole plantation of 851 acres of cinchona and over 3,000 acres of afforested land. The Munsong harvest of 394,560 lbs. at 2·7 annas per lb. cost Rs. 66,582. Its value on its average quinine percentage of 4·74 and unit rate as above is Rs. 1,75,332 which much more than covers the year's expenditure on the whole plantation. The total cost of the harvest was Rs. 1,07,195 and its value Rs. 2,66,711.

5. **Cost and value of quinine produced**—(*a*) **Cost in the bark.**—The 22,713 lbs. of quinine extracted were contained in 510,160 lbs. of mixed Mungpoo and Munsong barks, which cost (233,914 lbs. at 3·6 annas and 276,246 at 2·7 annas per lb.) Rs. 99,247. The cost per lb. of quinine in the bark was therefore Rs. 4·36.

(*b*) **Cost of extraction, packing and delivery to railway.**—The gross charges are the total direct expenditure on the factory (Appendix D) *plus* its share of the general charges and depreciation for machinery and buildings, in all Rs. 1,23,689-8. From this have to be deducted Rs. 40,352-11, made up of Rs. 25,376, the cost of extracting 12,688 lbs. of cinchona febrifuge, both provincial and imperial, at Rs. 2 per lb. and Rs. 14,976-11, the cost of chemicals, oil and stores, purchased during the year but not used up. Net charges are therefore Rs. 83,336-13, which cover the extraction of 44,254 lbs. of quinine, both provincial and imperial. The extraction rate is therefore rather less than, but taken at, Rs. 2 per lb. This is a big drop from Rs. 3·56, the cost last year, and is due to the much larger output of quinine in 1921-22.

(*c*) **Total cost per lb. and value.**—Total cost is Rs. 4·36 *plus* Rs. 2 or Rs. 6·36 per lb. At Rs. 36, the present wholesale rate, the 22,713 lbs. of provincial quinine manufactured is worth Rs. 8,17,668, but cost only Rs. 1,44,454.

6. **Sales and selling rates.**—The sales are shown in tabular form in Appendix G. In that table the total quantity of quinine does not include 37 lbs. issued direct from the factory to the plantation dispensaries and as samples. On the other hand, the quantity of cinchona febrifuge, 13,188 lbs. 8 oz. includes, in addition to the total output of the factory from provincial bark, 5,376½ lbs. extracted from Government of India bark and 1,100 lbs. purchased by the Public Health Department direct from the Madras Cinchona Department. Rates were for quinine Rs. 48 to Rs. 50 per lb. for the first eleven months of the year, thereafter Rs. 36 to Rs. 38 per lb. For cinchona febrifuge the rates were respectively Rs. 10 to Rs. 12 and Rs. 8 to Rs. 10 per lb. for the same periods. Quinine in tablet form was sold at the rate of Rs. 43¾ per lb.

7. **Expenditure and receipts.**—The total expenditure on the department was Rs. 3,33,614-3. The total receipts, including Rs. 179-12 received direct, were Rs. 15,40,613-2-8, of which Rs. 5,88,848-8 were credit and Rs. 9,51,764-10-8 cash. Of the latter Rs. 2,60,244-7-6, being half the sum realised from the sale of quinine treatments, were credited to the Prisons Department, in accordance with the orders issued in 1918, to meet the charges incurred by the Prisons Department in connexion with the conversion of purified quinine into treatments and the distribution of the latter. In 1918-19 the Prisons Department was credited with Rs. 1,65.180-2 to meet charges in connexion with the conversion and distribution of 12,77[illegible] lbs. 14 oz. purified quinine, which works out at almost Rs. 13 per lb. as against Rs. 6·85, the then cost of manufacture per lb. of the purified quinine. For 1921-22 the Prisons Department has been credited with Rs. 2,60,244-7-6 to meet charges in connexion with the conversion and distribution of 11,042 lbs. of pure quinine, which works out at Rs. 23½ per lb. as against Rs. 6·36 per lb. for manufacture of the same, including packing and distribution to the railway. Deducting this amount and crediting the Cinchona Department only with that proportion of the total receipts shown in Appendix B as receipts for the sale of cinchona febrifuge corresponding to the total amount manufactured during the year, the net receipts come out at Rs. 12,15,609-7-2 and the surplus at Rs. 8,82,095-4-2.

8. **Quinine reserve and stock account.**—The reserve had sunk at the end of the year to 28,538 lbs. 6 oz. In the stock account the mistake of including in the provincial stock cinchona febrifuge belonging to the Government of India, which originated with the closing balance of stock of this drug in the report for 1919-20, has been corrected. The total value of stock at the end of the year was Rs. 9,70,441-10-5, of which quinine worth at least Rs. 8,56,151-4 was the chief item.

9. **Block account.**—The cinchona trees were revalued at a rate lower by 25 per cent. than last year's rate to correspond with the reduction in the price of quinine. This has more than counterbalanced the bark increment of the year, so that the plantations are taken at last year's value less Rs. 74,894. *See* Appendix F for details.

10. **Profit and loss valuation.**—This is shown in Appendix E. There is a valuation profit balance of Rs. 5,13,691-0-3.

11. **Land rent.**—The rent collected from settlers on Mungpoo was Rs. 5,062-14 paid into the Darjeeling Treasury. The grazing fees collected on Munsong were Rs. 952-5-6 paid into the Kalimpong Sub-Treasury to the credit of the Forest Department.

12. **Staff.**—For the first time for a good number of years the staff of the department from near the end of the year has been almost at full strength. It would take up too much space to enumerate the entire staff and the various internal changes in postings. Sufficient to state that all the executive officers of both factory and plantations have worked with their customary praiseworthy goodwill and energy to which the prosperous condition of the department bears witness.

13. **Medicinal plants other than Cinchona.**—The number of *Ipecacuanha* plants has now increased to almost 113,000. It is proposed to begin the experimental extraction of Emetine during the coming year. The crop of *Digitalis* was 1,200 lbs. of dry leaf.

## DEPARTMENT OF AGRICULTURE, BENGAL.

### Preliminary Forecast of the Bhadoi Crops of Bengal, 1922-23

[NOTE.—On an average of the five years ending 1920-21, the area under autumn rice in Bengal has represented some 6·4 per cent of the total area under rice in British India.]

**Character of the Season.**—The long spell of drought, which prevailed from November last year to end of May this year, was unfavourable for preparatory tillage and for the sowing of the crops. As a result, the area under these crops has been much reduced especially in the eastern districts. The rainfall in April and May, though greatly defective, somewhat improved the situation and sowings proceeded briskly towards the end of May. The rainfall in June, was generally beneficial to the growth of the crops In July, the rainfall was moderate except in North Bengal where the fall was generally heavy towards the latter part of the month. Consequently the rise of the rivers caused some damage to the ripe autumn paddy in lowlying tracts in East and North Bengal. The August rainfall was a little defective in North Bengal but was markedly in excess in the western and less so in the eastern districts. Considerable damage has thus been caused to the low land crops by floods in certain districts of West Bengal, Midnapore, Bankura, Howrah, and Hooghly being the worst sufferers. On the whole, a fair crop is expected on the low lands and a satisfactory one on the high lands.

**Acreage.**—The total area sown with the different *bhadoi* crops this year is reported to be 5,902,800 acres as against 6,393,500 acres and 6,477,000 acres respectively in the corresponding and final forecasts of last year. Of this, the area under autumn rice is estimated at 5,126,700 acres as against 5,542,200 and 5,607,300 acres respectively in the corresponding and final forecasts of last year.

**Outturn.**—According to the District Officers' estimates, the outturn of the different *bhadoi* crops for the Province works out at 76 per cent. of the normal as against 81 and 85 per cent reported, respectively, in the corresponding and final forecasts of last year. Autumn rice, the most important of the *bhadoi* crops, yields an outturn of 76 per cent. of the normal for the Province this year as against 81 and 85 per cent. in the corresponding and final forecasts of last year.

The outturn is expected to fall much below the normal for want of rain in the beginning and excessive rain afterwards causing damage to the extent of 33 per cent. in Basirhat and 67 per cent. in Diamond Harbour subdivisions. |

Since the sowing till the end of May the weather conditions were quite unfavourable for germination and growth. From June, however, the conditions became favourable but owing to flood which has caused some damage, the weather again became unfavourable in the Kushtia and Meherpur subdivisions. |

| MURSHIDABAD. | *Bhadoi* paddy (autumn rice). | 229,700 | 179,500 | 167,300 | 58 | 58 | May to June. Late | The decrease in area is due to drought at sowing time. The late but continuous shower of rain hampered the sowing operation and subsequent heavy rain was not beneficial to the growth of the crops and also retarded weeding. The damage caused by excessive rain and flood is estimated at about 42 per cent. |

The weather was not favourable at sowing time. The outturn is estimated to be below the normal owing to damage caused by drought at the beginning and by heavy rain subsequently, especially in the Magura, Narail and Jhenidah subdivisions. |

| BURDWAN. | *Bhadoi* paddy (autumn rice). | 140,000 | 85,700 | 79,400 | 83 | 108 | | The decrease in area is due to prolonged drought at sowing time. The unusually early start of the monsoon and subsequently continuous rainfall caused the ploughing and sowing to be. A good outturn is expected on account of the copious and continuous rainfall after sowing. |

## DEPARTMENT OF AGRICULTURE, BENGAL.

### First Forecast of the Winter Rice Crop of Bengal, 1922-23.

**[Note.—On an average of the five years ending 1920-21, the area under Winter Rice in Bengal has represented some 19·7 per cent. of the total area under rice in British India.]**

**Character of the season.**—The season at the outset was dry, but good rainfall towards the end of May accelerated the preparation of the land. The broadcast paddy also somewhat recovered from the evil effects of the drought in the beginning of the season. The monsoon which became established early in June further improved the broadcast paddy, facilitated the transplantation of *aman* and helped on the growth of the deep-water paddy in Eastern Bengal. In July moderate rainfall alternating with sunshine was highly beneficial to all varieties of the crop facilitating weeding and transplanting operations. Except in North Bengal the rainfall in August was excessive and markedly so in the Western districts where the crops suffered badly in places from the floods. The rise of the rivers was also responsible for some damage to broadcast paddy on the lowlands in the Eastern and Northern districts. The present weather conditions are favourable. The prospects so far are good for the transplanted variety and fair for the broadcast paddy.

**Acreage.**—According to the figures returned by the District Officers, the total area under winter rice is 15,574,300 acres, as compared with 15,187,000 and 15,850,200 acres in the corresponding and final forecasts of last year.

**Outturn.**—From the summary of the district returns appended it will be seen one district expects a bumper crop, six districts normal, 17 districts 92 to 80, and four districts 75 to 54 per cent. of the normal crop. According to the above estimates the provincial outturn works up to 92 per cent. as against 88 and 96 per cent. of the normal respectively in the first and the final forecasts of the last year.

## Final Forecast of the Jute Crop of Bengal for 1922.

**NOTE.—On an average of the five years ending 1920-21, the area under jute to which this forecast relates represents some 88·2 per cent. of the total area under jute in British India.**

**Season.**—As indicated in the preliminary forecast, the weather was exceptionally dry during the earlier part of the year hampering sowing operations and seriously interfering with the growth of the early sown crop. In July seasonable rain fell with a slight excess in North Bengal and weeding operations were carried on favourably in the *deshi* districts. The late sown crop, on the other hand, fared well, especially on the high lands of East and North Bengal. The rise of the rivers towards the latter part of the month adversely affected the crop in certain low-lying areas and caused premature harvesting in those tracts. The rainfall in the first week of August was heavy in parts of West Bengal causing damage to the jute plants on low lands, the districts which suffered most being Murshidabad, Howrah and Midnapore. In Eastern Bengal good rainfall during this month facilitated the steeping and washing operations generally.

**Condition of the crop.**—During the early part of the year the low land crop in Eastern and Northern Bengal suffered through unusually dry weather, but subsequently, as the result of seasonable rainfall, the crop recovered from the effects of the prolonged drought. The high land crop, on the other hand, continued to prosper up till the harvesting period. The condition in the *deshi* districts is poor, more particularly in certain low-lying tracts, but elsewhere prospects are generally fair.

**Acreage.**—The area under jute is returned at 1,218,908 acres, a decrease of 110,282 acres or 8 per cent., as compared with last year's final figures. The decrease is attributed mainly to drought at the sowing season and in a minor degree to the low price obtained for the three preceding crops; and also to the comparatively high price of food-stuffs which induced cultivators to grow more paddy in place of jute.

**Outturn.**—As in previous years the percentage figures are calculated on the basis of divisional normals, which remain as follows:—Dacca and Chittagong 3·7 each, Rajshahi 3·5, Presidency and Burdwan 3·2 bales per acre.

The total outturn of the crop is returned at 3,577,784 bales of 400 lbs. as against 3,605,991 bales in last year's forecast a decrease of 28,207 bales.

| 24-Parganas ... | 96,178 | 80,436 | 75 | 81 | 59,973 | 81,413 | End of August. Normal. | The increase in area is due to rise in price of jute and to a partial failure of sugarcane crop.<br>The increase in area over the preliminary forecast is due to rechecking of the figures. |
| Nadia ... | 33,431 | 27,393 | 97 | 86 | 60,529 | 47,923 | Ditto ... | The decrease in area is due to unfavourable weather conditions at sowing time, to low price of jute in preceding years and to preference given to the cultivation of paddy. |
| Murshidabad ... | 6,514 | 7,413 | 66·4 | 51 | 13,229 | 12,114 | End of August. Late | Owing to late sowing followed by heavy rains, the yield per acre is below the normal.<br>Heavy floods in the *diara* areas did considerable damage to the crop. |
| Jessore ... | 43,579 | 36,651 | 94 | 68·4 | 130,787 | 58,341 | End of July to August. Early. | The decrease in area as compared with the preliminary forecast is due to floods in Magura and Narail subdivisions and some jute lands being resown with paddy.<br>The decrease in outturn is due to stunted growth of the plants which were sown late and harvested early. |
| Khulna ... | 4,941 | 3,941 | 72 | 74 | 11,432 | 8,332 | Latter part of August. Normal. | The decrease in area is due to unfavourable weather in the sowing season and to low price of jute and high prices of food-grains.<br>The decrease in area below the first forecast is due to damage by flood in Satkhira.<br>The decrease in outturn is due to want of timely rainfall and also to excessive rain during the latter part |
| Burdwan ... | 1,343 | 1,090 | 74·37 | 80 | 3,193 | 2,790 | Last week of August | The decrease in area is due to unfavourable condition of the market and to late rain at the beginning and to continuous heavy showers afterwards interfering with the normal growth of the crop and resulting in a low outturn. |
| Midnapore ... | 5,511 | 4,030 | 66·90 | 54·4 | 11,829 | 7,026 | September. Late ... | The decrease in area is due to want of rain at sowing time and to subsequent floods in June and August. |
| Hooghly ... | 18,993 | 10,339 | 90 | 71·87 | 48,632 | 26,974 | Third week of August. Normal. | The decrease in area compared with last year is due to prolonged drought and to consequent want of soil moisture at sowing time interfering with the preparation of land and sowing. Since the preliminary forecast some area was ploughed up and resown with other crops.<br>The decrease in outturn is due to incessant and heavy rainfall during the growing period and for want of weeding the crop at proper time. |
| Howrah ... | 4,659 | 3,367 | 85 | 80 | 12,673 | 5,707 | Beginning of September. Late | The large decrease in area and outturn is due to unfavourable weather conditions and to damage by floods. |
| Rajshahi ... | 44,849 | 46,462 | 79 | 71·43 | 135,437 | 116,150 | Middle of August. Normal. | The sowing was late this year for want of rain. The continuous rain in July and August was detrimental to the growth of the crop. Some damage by heavy rain and flood is reported from Nator subdivision. Hence the outturn is below the normal. |
| Dinajpur ... | 43,547 | 35,117 | 85 | 81·8 | 84,079 | 63,667 | By the middle of July Normal. | The decrease in area was due to continued drought at sowing time and to low price of jute.<br>The outturn is below the normal owing to incessant rainfall during the growing time and to late sowing. |
| Jalpaiguri ... | 28,832 | 33,239 | 80 | 100 | 60,932 | 116,804 | Middle of August. Normal. | The increase in area is due to expectation of a better price this year. The increase in outturn is due to favourable weather. |

| Rangpur ... | 138,256 | 154,064 | 71·97 | 90·31 | 348,295 | 498,720 | July Normal ... | The increase in area is due to high price of jute in the latter part of the last financial year and to the fact that the cultivators had found at last that they had not profited by giving up the cultivation of jute. Harvesting was, however, retarded in August owing to inadequate rainfall. |
| Bogra ... | 50,600 | 48,320 | 89·3 | 91 | 145,753 | 144,344 | Eastern side of river Karatowa (alluvial tract). Middle of July. Western side. End of July. | Pabna ... | 65,620 | 74,754 | 61·4 | 94·3 | 141,017 | 246,752 | Middle of July ... | The increase in area is due to high price of the fibre at the time of sowing. Continued drought and early flood adversely affected the crop. Sufficient rainfall in June and July, however, facilitated the growth and substantially improved the prospects. |
| Malda ... | 7,470 | 6,500 | 44·3 | 47·7 | 11,880 | 10,850 | By the end of August. Late. | The decrease in area is due to revision owing to total damage by flood water mainly in Nawabganj, Shibganj, Kaliachak and Harischandrapur thanas.<br>The decrease in outturn is due to unfavourable weather at the beginning and to continuous heavy rain during the growing period which prevented weeding operation. |
| Dacca ... | 140,000 | 130,000 | 79 | 75 | 410,000 | 365,000 | July Normal ... | The decrease in area is due to low price of jute and to prolonged drought at the beginning. Where the crop was sown early, it suffered greatly for lack of moisture. The rainfall was favourable in June, but the rivers rose too quickly and did some damage to the crop in low-lying area. The crop also suffered from insect pests in some places. Hence the outturn is not satisfactory. |
| Mymensingh ... | 333,393 | 298,096 | 80 | 91 | 987,794 | 966,182 | End of July. Normal. | Since the end of May, the weather has been favourable. |
| Faridpur ... | 145,000 | 89,000 | 84 | 72 | 443,200 | 236,300 | End of July ... ... | The decrease in outturn is due to (1) drought at sowing time and for some time after, which stunted the growth of the crop; (2) to late sowing and (3) to sudden rise of water causing premature harvesting in some places. |
| Bakarganj ... | 19,412 | 8,540 | 76 | 57·6 | 54,897 | 18,292 | July. Early ... | The fall in outturn is due to insufficient rainfall at sowing time and to excessive rain afterwards which affected the growth of the crop.<br>The sowing was late but harvesting was early owing to flood in July. |
| Chittagong ... | 200 | 200 | 81 | 90 | 600 | 660 | Last week of August | The crop suffered from drought at the beginning but later on the weather was favourable for the growth of the crop. |
| Tippera ... | 150,000 | 150,000 | 72 | 82 | 400,000 | 455,100 | Middle of July to August. Normal. | The increase in yield is due to favourable weather condition after sowing. |
| Noakhali ... | 7,383 | 8,333 | 95 | 75 | 25,929 | 23,749 | Middle of July to August. Normal. | The increase in area is due to rise in price of jute.<br>The outturn is below the normal owing to drought at the beginning and to heavy downpour afterwards. |

# DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

## Final Forecast of the Jute Crop of Bihar and Orissa, 1922.

NOTE.—On an average of the five years ending 1920-21, the area under jute to which the Bihar and Orissa forecast relates represents about 7·6 per cent. of the total area under jute in British India.

**Acreage.**—The final district returns of the seven jute-growing districts of the province show an area under jute of 146,098 acres or, in round numbers, 146,100 acres, as compared with 144,600 acres reported in the preliminary forecast, 1922, and 108,400 acres last year. The increase in area sown this year is mainly in Purnea, where it is attributed to the rise in the price of jute; but actual measurement of the area in 10 per cent. of the villages in Purnea indicates that the estimate may be too high by some 20,000 acres.

**Weather conditions.**—In March, there was no rain in the jute districts, except very light showers in Cuttack. In April and May the rainfall was below the normal everywhere. In June and July the rainfall was above the normal everywhere; it was very heavy in all the jute-growing districts, except Cuttack and Balasore in June and in Cuttack in July. The rainfall in August was below the normal in Purnea and Cuttack and above the normal in the remaining districts. The season was on the whole unfavourable for the crop. The growth of the crop on low lands in Purnea was retarded on account of heavy rain in June.

**Outturn.**—In the important districts of Purnea and Cuttack the outturn of the crop has been reported as 70 and 79 per cent., respectively. Champaran reports a crop of 98 per cent., Balasore, Muzaffarpur, Bhagalpur and the Santal Parganas report 84, 80, 66 and 60 per cent., respectively.

On the basis of the area and percentage outturn reported by the District Officers and taking three bales as the normal outturn per acre, the total gross outturn of the crop for the province this year comes to 313,423 bales or, in round numbers, 313,400 bales against 225,400 bales for last year.

The average import of raw jute into this province from Nepal during the last three years was equivalent to 77,621 bales. This figure added to the figure for the province arrived at gives a total for Bihar and Orissa of 391,044 bales or, in round numbers, 391,000 bales.

In view of the probably excessive estimate of area in Purnea, 3½ lakhs of bales is probably nearer the mark.

Date normal. | The weather and rainfall have not been favourable in the Sadar subdivision owing to floods and excessive rainfall. In Bettiah they were favourable. The outturn is expected to be a little less than normal in Sadar and normal in the Bettiah subdivision. The difference between the area shown in column 7 of this forecast and that in column 7 of the first forecast is due to the result of detailed enquiry. |
| | Muzaffarpur ... | 1,942,324 | 1,627,000 | 1,900 | 2,095 | 1,625 | 75 | 80 | 4,714 | 3,900 | Not yet begun ... | Excessive and incessant rains have stood to a certain extent in the way of better prospects than expected. The decrease in area as compared with the last year's area is due to the fact that on account of excessive rains much of the low lying *bâids* land was utilised for paddy. |
| Bhagalpur | Bhagalpur ... | 2,661,020 | 1,664,100 | 1,257 | 1,173 | 1 173 | 90 | 66 | 3,167 | 2,321 | August and September. | |

So also the case in some parts of the Sadar subdivision. The weather and rainfall were favourable for the crop at Araria and on the whole a fair outturn is expected. The increase in area is due to the rise in the price of jute. |
| | Santal Parganas | 3,490,400 | 1,717,900 | 2,000 | 500 | 400 | 62 | 60 | 945 | 720 | Beginning of September | The whole crop on the area (100 acres) shown at Pakaur was destroyed being under water on account of heavy rains. In Rajmahal also the area sown is 300 acres against 400 acres in last year, but the yield is expected to be the same as in the last year. The decrease in the total yield as compared with that of last year is due to the fact that the yield at Pakaur is reported to be nil. |
| Orissa | Cuttack ... | 2,340,307 | 1,222,300 | 18,500 | 16,600 | 16,900 | 96 | 79 | 40,248 | 38,294 | Last week of August, which is late. | The weather and rainfall were generally favourable to the growth of the crop. The increase in area under the crop is shared by the Kendrapara subdivision. The entire area under this crop had not been sown when the first forecast was submitted. |
| | Balasore ... | 1,383,621 | 932,200 | 2,440 | 1,700 | 2,900 | 93 | 84 | 4,743 | 6,552 | Not yet begun ... | The outturn of this year is less than that of last year owing to late sowing and consequent stunted growth of the plants. |
| | Total ... | 17,222,665 | 10,309,300 | 220,557 or in round numbers 220,600 | 105,368 or in round numbers 106,400 | 146,236 or in round numbers 146,100 | 69·2 | 71·5 | 225 417 or in round numbers 225,400 | 313,423 or in round numbers 313,400 | | |

## Final Forecast of the Jute Crop of Assam, 1922.

**NOTE.—On the average of the five years ending 1920-21, the area under jute in Assam represents 4·3 per cent. of the total area under jute in British India.**

**1. Season.**—Since the issue of the preliminary forecast the weather has continued to be generally favourable, but the unusual drought in the spring which affected the early growth of the crop has caused the outturn to fall below normal.

**2. Area.**—The area under jute as reported by the Deputy Commissioners is 90,800 acres against the final figure of 80,800 acres (revised) in last year and 91,400 acres shown in the preliminary forecast of this year. The increase from last year is generally due to a better market. The areas reported in the preliminary forecast have been revised in five districts, two showing a decrease and three an increase.

**3. Outturn.**—The outturn is estimated to be 84 per cent. of the normal per acre against 56 (revised) of last year. On the basis of the normal yield of 3·5 bales of 400 lbs. per acre the total yield of jute fibre in Assam is calculated to be 268,000 bales against the revised figure of 154,400 bales of the previous year, or an increase of 74 per cent.

## IMPROVEMENT OF THE EVENING CLASSES IN THE MINING CENTRES OF BENGAL.

### GOVERNMENT OF BENGAL.

### AGRICULTURE AND INDUSTRIES DEPARTMENT.

DARJEELING, THE 18TH SEPTEMBER 1922.

RESOLUTION—No. 169T.—IND.

**Minister in charge : The Hon'ble Nawab Saiyid Nawab Ali Chaudhuri, Khan Bahadur, C.I.E.**

IN 1913 a Joint Committee for the two provinces of Behgal and Bihar and Orissa was appointed under the presidency of Mr. (now Sir Duncan) Macpherson to advise on the question of Mining Education in the coal-fields. The Committee submitted a detailed scheme for the establishment of a School of Mines at Dhanbad. They also recommended the improvement and development of the existing evening classes which are conducted by part-time lecturers in mining centres and their continuance independently even after the establishment of the School of Mines. In place of the existing part-time lecturers they recommended that a permanent staff of properly trained and qualified teachers should be appointed and drew up two alternative schemes, one for a course extending over five years which would produce first-class mine managers, and the other for a course limited to three years which would turn out second-class mine managers.

2. The Government of India have taken up the question of the establishment of a School of Mines and Geology at Dhanbad. A joint scheme for the improvement of the evening classes in the mining centres of the two provinces of Bengal and Bihar and Orissa was prepared, but the scheme fell through, and the Government of Bengal decided to take up separately for the two mining centres in this province the less costly scheme for a three years' course, suggested by the Macpherson Committee, to meet the requirements of those desiring to appear at the examination for the second-class colliery managers' certificates. The Mining Education Advisory Board was accordingly asked to submit, for the approval of Government, a complete scheme with details as to the nature and scope of the classes, and representatives of the mining industry were consulted as to their willingness to co-operate in the scheme. The Indian Mining Association and the Indian Mining Federation approved of the scheme and intimated their willingness to contribute Rs. 4,000 and Rs 1,500, respectively, or Rs. 5,500 in all, towards the annual cost.

3. The scheme prepared by the Mining Education Advisory Board involved the construction of two lecture-halls at Raniganj and Sitarampore, quarters for the Mining Instructor at Asansol, two quarters for the Assistants, one at Raniganj and the other at Sitarampore, and furniture for the two lecture-halls, at a total estimated cost of about Rs. 70,000. Some of the buildings are already under construction, and it is proposed to start the classes there from the current month.

4. The staff for the evening classes consists of a Mining Instructor on a pay of Rs. 1,000—50—1,200 and of two Assistant Lecturers on a pay of Rs. 150—10—250 each, with free quarters, or house-rent in lieu thereof, and of one peon and two chaukidars at Rs. 13—½—17 each per mensem. The total cost, including travelling and conveyance allowances, contingencies and repair charges of the buildings, is estimated at about Rs. 27,000 per annum. Steps will be taken at once for the recruitment of the staff.

5. The session will extend over about nine months, each class being held twice a week at each centre.

6. Students will be admitted at any stage of the three years' course at the discretion of the Lecturer, but no certificate will be granted to any candidate unless he has completed the second and third year courses successfully.

The curriculum will be as follows :—

*I —First-year course.*

(1) Mathematics—

Arithmetic and Algebra.
Mensuration and Use of Squared Paper.
Trigonometry.

(2) Elementary Science—

Physics and Chemistry.

*II.—Second-year course.*

(1) Elementary Mechanics.
(2) Mechanical Drawing.
(3) Elementary Mining and Surveying.

*III.—Third-year course.*

(1) Mining and Geology.
(2) Mechanical and Electrical Engineering.

By order of the Government of Bengal,
(Ministry of Agriculture and Industries),

J. A. L. SWAN,
*Secretary to the Government of Bengal.*
